

PLANAR TARGETS	Simple or profiled design for the best utilization Possibility of indium/nanofoil bonding	
	Targets for large area coatings	Thickness up to 38 mm Simple or profiled design with ss clamps for better handling and the best utilization
ROTATABLE TARGETS	Up to 4000 mm length	
	Up to 160 mm diameter of backing tube	Cold Gas Spray – Ag, AgAu, Cu Thermal spray – Ag, Au, Zn, ZnSn, ZnAl
TARGETS FOR OPTICAL MEDIA INDUSTRY	Material: Ag 4N, Ag alloys, Au 4N, CuAl alloys	
PELLETS	Up to 4000 mm length	
	Dimensions:	dia 3,18x3,18 mm lenght (0,125"x0,125") dia 6,35x6,35 mm lenght (0,25"x0,25") dimension can be improved based on customer request
QUALITY ASSURANCE	EN ISO 9001 and EN ISO 14001 standards Ultrasonic testing Metalography grain size determination
